PERSONALITY

A perfect balance of passion and rationality, emotion and safety, style and versatility: Alfa GT, the coupé that offers maximum driving pleasure with all the elegance and comfort of a saloon with exceptionally generous interior space. A car that makes dreams come true. An engine that deploys superlative automotive

technology to deliver searing performance, fuel economy and unparalleled flexibility on the open road or in city traffic.

Internal trim features high prestige materials with the hallmarks of elegance and comfort. Compact, aggressive styling that embodies all of Alfa Romeo's unmatched sporting tradition.

disegno **BERTONE**

An unusual interpretation of sportiness, a seamless amalgam of elegance and comfort.

A style with all the flair and unmistakable traits of Italian design and of Alfa Romeo's great tradition. A pure design statement from the Bertone Style Centre and Alfa Romeo.

Clean-cut, sleek motifs hide the interior space of a large saloon. Enjoy the versatility of a station wagon beneath the alluring looks of a thoroughbred coupé.

A temperament defined by the front end with its bold shield, set between the wrap-round headlights: the true focal point of the forceful, aggressive styling of the car. An impression that is reinforced by the taut lines of the sides and by the slightly raked, tapered tail: a perfect synthesis of sturdiness and strength. Unusual and original, a real scene-stealer: the very best expression of the spirit of Alfa GT.

Created to blend elegant taste and the pleasure of a sporty style of driving, the Alfa GT is unique right down to its refined minor details, ideal for all those seeking an exciting car with luxury refinements.

ELEGANCE AND SPORTING SPIRIT

All the fascination of past Alfa classics, combined with the strength of the present, characterised by passion and refined elegance. This is the spirit of Alfa GT.

With its strong, decisive, uncompromising personality, Alfa GT is a pleasure to see, to touch and to drive. Facia trim with a luxury

satin-finish effect. Extremely soft, opulent leather interior. Instrumentation set on a light-coloured background that combines racing-car design with complete visibility. The sporting design of the dedicated steering-wheels and transmissions offers maximum vehicle control in all situations.

As soon it sets off, the Alfa GT stirs new emotions, dominating the road with undaunted confidence, with the performance of a real coupé combined with unequalled comfort and roominess that makes each trip an immersion in creature comforts.

Alfa GT: unadulterated Alfa Romeo sporting performance and elegance.

02
COMFORT
AND PRESTIGE

Alfa GT embodies a mould-breaking concept of comfort: the freedom to choose high prestige materials and to combine these to match your personality. Luxury Momo leather seats are available in black, beige, grey or red – upholstered according to the tenets of fine Italian craftsmanship.

The Alfa GT comes with a sophisticated dual-zone climate control system, enabling two different temperatures simultaneously: one in the right part of the passenger compartment and the other in the left.

High tech on board comfort is essential, with a host of features including: RDS radio with stacker CD and MP3, Bose® Hi-Fi System with 8 speakers and subwoofer, cruise control, trip computer, audio controls on the steering-wheel.

A revolutionary multifunctional display in the middle of the Alfa GT fascia provides the driver with information on the main trip parameters offering instant feedback on vehicle performance and the surrounding environment.

Alfa GT

Alfa GT has the looks of a coupé but is, at the same time, a luxury saloon with surprisingly generous inside space and maximum comfort. Shaped to cater to different requirements and to adapt effortlessly and with great versatility to different driving, space and habitability requirements.

Elegant personality and deluxe comfort are reflected in the generous space available to the driver and passengers: five seats for refined roominess with a level of sound-proofing that exalts the pleasure of driving in maximum silence. With Alfa GT, trip comfort soars to new heights, rewarding those seeking the emotions of sporty driving without having to compromise on comfort.

The sporting lines of the coupé and the elegant environs of the saloon hide an unexpected level of flexibility. A 320 dm³ luggage compartment is surprisingly large for a high performance sports car.

Split fold rear seats provide a highly flexible luggage area. By exploiting the many different combinations you can enjoy great versatility with a boot space that mushrooms to 905 dm³.

Alfa GT embodies all of Alfa Romeo's passion and tradition. A car that combines refined elegance and top-flight performance with impeccable control and unequalled safety: a refined sporting spirit that immediately stirs the enthusiasm of those seeking the emotions of powerful, comfortable and intuitive driving.

- **3.2 V6 24V.** Power 176 kW (240 bhp) at 6200 rpm. Torque of 300 Nm (30.6 kgm) at 4800 rpm. 6-gear manual transmission. Full, progressive delivery even at low speed, in the tradition of Alfa Romeo 6-cylinder engines. An engine that offers very high performance levels but which is docile and agile in city traffic.

A unique car, starting from the engine that is at the top of its category.

The 176 kW 3.2 V6 24V with 6-gear manual transmission. A sturdy, full-bodied 6-cylinder engine that offers scintillating performance and unadulterated driving pleasure: smooth power delivery that stirs emotions but is also flexible and progressive: its torque curve reaches high values even at low speeds, making it possible to travel in sixth gear at less than 2000 rpm and to accelerate smoothly without having to change gear. An impeccably-behaved power unit that brings new pleasure to everyday driving.

Alfa GT has stability and control built into its DNA. Double circuit hydraulic brakes complete with latest generation ABS and EBD (Electronic Brake-force Distributor). VDC system (Vehicle Dynamic Control), Alfa Romeo's original interpretation of the ESP,

that restores vehicle trajectory in the case of loss of stability. ASR, which prevents slipping of the wheels and the MSR system that prevents skidding. New Xenon headlights that deliver twice the lighting power of halogen bulbs. Total control, guaranteed by solutions inherited from Formula 1, such as the high double wishbone front suspension which keeps the tyres always perpendicular to the road. This guarantees maximum stability even at high speeds, as well as greater agility on mixed terrain.

Overseas model shown.

The focal element of Alfa GT's unequalled safety is the torsional rigidity of the bodyshell which helps to guarantee maximum stability and road-holding. Around its strong and progressive bodyshell, Alfa GT features an array of top class equipment: the FPS (Fire Prevention System) with tank-locking valve and inertia switch that cuts off the flow of fuel in the case of impact in some types

of accidents, seat belts with inertia reel and load limiter at the front and rear, fully collapsible, adjustable steering column, anti-intrusion bars in the doors, energy-absorbing internal trim.

The GT provides 6 standard airbags including two newly-designed window bags that inflate more quickly. They open from the top down in order to protect the head of the front passenger. Maximum safety features provide comfort and confidence, allowing you to fully appreciate the intense emotions of brilliant driving.

07 PERSONALITY

High prestige materials, state-of-the-art technology and elegant colour combinations, to personalise your Alfa GT so that it is always an exclusive lifestyle statement, tailored to your every need.

Alloy wheels are 17" with spoke design.
An impressive choice of colours and metallic shades.

A wide choice of trim for the facia including classical sporty black, two shades of grey or two-tone black/grey.

Other practical, useful solutions include the body-coloured heated electric rearview mirrors, Xenon headlights with high lighting power, rear fog-lights and the trip computer that makes it possible to communicate with the outside world with the touch of a button.

DETAILS

There is always something extra behind all Alfa Romeo cars: the Alfa Romeo Dealers, ready day by day to provide customers with advice and to illustrate all the details that make each Alfa GT a statement of personal taste, individual lifestyle and style of driving.

From the Bose® Hi-Fi system to the body-coloured heated rearview mirrors, from the Xenon headlights to the double chromium-plated tail pipe, from the rear fog-lights to cruise control and the Alfa Romeo steel kick plate.
